	<p>and inventive within the meaning of PCT Article 33(2) and (3) for the following reasons:</p> <p>2.1 D1 is regarded as the prior art closest to the subject matter of claims 1 and 4. The subject matter of these claims differs, according to the characterizing part, from the method known from D1 and the device known from D1, respectively, in that:</p> <p>Claim 1: The descaling operation takes place at a movable location in the oven.</p> <p>Claim 4: The descaling device is arranged in the oven so as to be displaceable using displacement means.</p> <p>2.2 Documents D2 to D5 do not contain the idea of making it possible to carry out the descaling at different locations within the oven, either.</p> <p>2.3 The additional features make it possible to prevent scale deposits in the rear area of the oven in a non-obvious manner.</p> <p>3. Claims 2 to 3 and 5 to 9 are dependent on claims 1 and 4, respectively, and therefore likewise meet the PCT requirements for novelty and inventive step (PCT Article 33(2) and (3)).</p>
